

2018 fruit growers victoria LTD. CONFERENCE

Inaugural Fruit Growers Victoria Conference

Thursday 16th & Friday 17th August 2018
Eastbank Centre Shepparton

The Grower's Conference...

The Fruit Growers Victoria Conference will be a major event for the fruit growing industry and the first of its kind for the area. The Conference will bring together delegates from across Victoria and provide a platform for growers and industry suppliers to gather and discuss current and emerging issues facing the industry.

The grower is the main focus of the Conference, providing them with considerable information to assist in achieving and maintaining competitive world growing standards. This would be reflected in improved yield and quality, bio security measures and pest and disease management.

2018 fruit growers victoria LTD. CONFERENCE

A message from the Chairman

The challenge this year for Fruit Growers Victoria Ltd has been to stage a conference / field day encompassing a wide variety of aspects of interest to members.

In order to be relevant to members, the body has undertaken a task that was envisaged would grow year by year to bind together, educate and provide a platform for Fruit Growers Victoria Ltd and individual members. For all to grow and be successful it has been recognised that co-operation and cohesion should be fostered.

The Fruit Growers Victoria Conference program has been purposely designed for the grower with the focus being on a variety of aspects relating to the future of horticulture in Australia. The Conference aims to present growers with industry specific information, contacts and resources - to provide the opportunity for growers to network with other industry members and academic professionals.

A sincere thankyou must be expressed to all staff and conference committee, including Countrywide Conference and Event management.

It is with pleasure that the conference is commended by the Board of Fruit Growers Victoria, with the anticipation that growth would eventuate with a gain in relevance.

Gary Godwill
FGVL Chairman

2018 fruit growers victoria LTD. CONFERENCE

2018 fruit growers victoria LTD. CONFERENCE

Our Conference Presenters

Howard Hansen, Hansen Orchards, Huon Valley, Tasmania.

Howard Hansen grew up in the Huon Valley, Tasmania surrounded by deciduous fruit grown by his family on the orchard that has been in the Hansen family for generations. Howard is now the driving force behind one of the largest growers of apples and cherries.

Hansen Orchards have new varieties and new strains of existing varieties and coupled this with the world's best growing practices. In 2016, Hansen Orchards won Exporter of the Year for the apple and pear industry's National Awards of Excellence.

Angelica Cameron, Entomologist, IPM Technologies

Angelica is an entomologist who has worked with Dr Paul Horne and Jessica Page at IPM Technologies for the last 5 years. She has experience assisting farmers and advisors to develop and implement highly successful IPM strategies. She currently works across Australia and New Zealand on a variety of projects aimed at increasing uptake of IPM in crops ranging from intensive horticulture to broad-acre cropping and fodder crops.

Angelica lectures in entomology and plant protection at the University of Melbourne and La Trobe University and in 2018 she received the "Researcher of the Year" award from the South Australian vegetable industry.

Dan Papacek AM, Entomologist, Bugs for Bugs Pty. Ltd.

Dan is an Entomologist and currently the Manager and Co-Owner of Bugs for Bugs. He received the Order of Australia (AM) in January 2001 for "Services to the Citrus Industry, particularly through the development of strategies for integrated pest management of horticultural crops."

Dan's key experiences range from Integrated Pest Management (IPM), managing beneficial insect mass-rearing programs and collaborating in research with QLD DPI, CSIRO and the Universities.

Over many years he has also worked directly with growers in endemic areas of Queensland to help them achieve best practice fruit fly control.

Hannah James, AgroFresh Research & Development Manager, Australia & New Zealand

With a PhD from Sydney University on internal browning in Pink Lady apples, Hannah started working for AgroFresh in Wenatchee, Washington in 2010 as a research manager.

She focused her research in Washington on the use of SmartFresh in apples and pears with focus on ways to maintain fruit quality during storage and development of protocols for extension of quality and prevention of postharvest disorders.

Her research focus since relocating back to Australia in 2015 has been based on Australian conditions and varieties, working on new 1-MCP formulations, developing use recommendations for SmartFresh on new apple varieties, developing tools for advancing storage technology of apples & pears.

Professor Emeritus Richard (Dick) Drew

Professor Drew has conducted research on tropical fruit flies throughout Asia, South-East Asia and the South Pacific region for five decades.

His research has led to the definition of all major pest species and a sound knowledge of their ecology and pest management strategies. He has published over 140 research papers and three major books.

In 1990 he received the Mackerras Medal from the Australian Entomological Society; in 1995 he was awarded the Order of Australia for outstanding contributions to fruit fly entomology and, in 2000, the Centenary Medal and then the Clunies Ross National Science and Technology Award, Australia's most prestigious science award. He is a fellow of the Australian Academy of Technology and Engineering.
